SPECIES	Grevillea 'Kay Williams'
COMMON NAME	Kay Williams
ORIGIN	
DESIGN USE	Feature shrub or for screening, bird-attracting

HEIGHT

4m

SPREAD

2m

HABIT

Rapid growing and showy tropical hybrid.

FORM

Tall shrub with finely divided grey/green leaves.

FLOWERS

Large pale cream/pink brush type flower heads.

FLOWERING PERIOD

Most of the year

VARIATIONS

'Kay Williams' is a cultivar of G. Sandra Gordon x G. banksii.

CLIMATIC TOLERANCES

Hardy and tolerant of coastal conditions. It will tolerate frosts once established.

HORTICULTURE

Hardy in a moist well drained soil in full sun. Pruning maintains denseness and encourages flowering.
